

Our Exclusive Product Range

Water Heating

Dish Cooker

Scheffler Dish

Oven

Wind Energy

Street Lighting

Tunnel Drier

Drier

Distiller

Lantern

Maestro

LPG HW Generator

NSIC-CRISIL SE 2B

CML-7377688

ISO 9001:2000

Patents
(awarded / pending)

PVDSunselect™
PVD Coated Solar Absorber

AKSON'S DELTA
Ideal Solution for Buildings

QUASAR
Concentrator Plate Collector

AN ISO 9001-2000 COMPANY

AKSON'S Solar®

Equipments Private Limited

From The desk of Managing Director

Fast developing economy in this era of globalisation has led to improved living standards. Ever increasing energy demand calls for increased consumption of fossil fuels causing Global Warming.

At **Akson's**, we firmly believe that Renewable Energy with major role of the Solar Energy can offer the sustainable solutions.

Established in 1997 exclusively for solar energy as the name indicates, **Akson's** through its relentless R & D efforts have developed number of unique products offering the optimal solutions to the energy needs of all segments of society right from the rural household to the large industrial units.

Akson's today has established itself as the technologically advanced solution provider covering the gamut of fields like solar water heating, solar cooking, solar driers and drying systems, space heating, solar desalination, effluent evaporation, solar photo-voltaics like lanterns, home lighting systems, streetlights, high bay lights using power LED and induction technology, power generation systems using either solar or wind as the stand alone or hybrid systems combining more than one source.

Akson's has positioned itself as the widest Renewable Energy solutions provider by forging strategic alliances with the leaders in different fields.

We are **COMMITTED TO PROTECT THE ENVIRONMENT** and are looking for channel partners across the globe, willing to join this mission.

We welcome all your enquiries, suggestions and co-operation to help **Akson's** reach to every single user on this planet.

Akson's: An open platform for Training, Knowledge Exchange, Technology Transfer & Collaborations.
